

Appointment Policy

As a patient of The Dental Design Center your time is as valuable as ours. We make every effort to keep to the scheduled appointment time you, our patient, has chosen. We do not book more than one patient at a time, (except when emergencies arise). This allows us to provide you with the highest quality of dental care.

Our office policy is such that we will attempt to contact you a few days in advance either by telephone and/or email as a courtesy confirmation. Cancellations of reserved appointment time must be made more than 24 hours in advance of the reserved appointment. Any patient who fails to show up to our office for an appointment that was reserved for them, will be charged a broken appointment fee. This fee is based on the length of time that was reserved for you.
